

Dyslexic and Un-Stoppable: The Survival Guide for Parents with Smart Kids Struggling in Elementary School

Does your child have issues with the following: Reading problems Tying Shoes Buttoning shirts and pants Remembering math facts, spelling words, and sight words Sitting still and paying attention Holding a pencil and putting ideas on paper Did you ever think that these could be related? You're in luck, we have the tools to help parents and children survive this ordeal and triumph to the other side. It may be that your child is dyslexic, and we'll help you figure it out either way. Dyslexia is a specific learning difficulty involving slow reading and trouble assigning the sounds to letter combinations. This leads to difficulty with reading, writing, and spelling. We have researched many of the available resources and picked out the very best techniques. We then adapted the techniques to be the most effective for dyslexic children and their parents. Topics we'll cover: Reading Symptoms Associated with Reading Writing Spelling Speech / Hearing Math (Dyscalculia) Organization / Memory Fine Motor Skills Visual/Spatial Sense Social, Emotional, Behavioral, Developmental, Personality Strengths and Gifts All laid out in an easy-to-understand format that you can review at your own leisure. Go back and review sections that you need help with. Skip from one section to another. Go at your own pace. It's all designed to help you connect the dots. By connecting the dots quickly, you can enroll your child in the appropriate services, to help him succeed and most importantly, to preserve his self-esteem.
