

## From Fear To Freedom

Most of us have at least a basic understanding of religion and may call ourselves Christians, perhaps even attending Church. Many will regard the values taught by Christian Churches as being of benefit to all, especially the youth in our community. What happens though when a religion goes wrong and becomes a destructive cult? How much damage can it do to believers? How are the lives of innocent people wrecked? Why do people become entrapped by cults in the first place? What nightmarish things sometimes go on behind the closed doors of a religious cult? Would you even recognize a cult if you found one? All these vitally important questions are answered in *From Fear to Freedom* and many typical characteristics of destructive religious cults are explained in clear yet simple detail. If you are trying to put your life back together after getting out of a cult, then this self-help book for religious cult survivors can help how? Because its written by a cult survivor who spent 31 years in Herbert Armstrong's powerful, destructive and so called Christian cult, The Worldwide Church of God. This easy to read title will also help if you are assisting a friend or family member to put a wrecked life back together after they have left a cult. It points the way forward for cult survivors and leaves the reader with a strong belief in hope, recovery and above all, freedom.
