

# Friend or Foe?: The Figure of Babylon in the Book of Jeremiah MT (Biblical Interpretation)

This work presents a literary interpretation of Babylon in the book of Jeremiah MT. It moves beyond historical-critical approaches, which have long dominated Jeremiah research, and shows that metaphor is central to a synchronic reading of the book. The study shows that Babylon is a multi-layered metaphor: at one level it is the archetypal enemy of both Judah and its God; at another level it is metaphorically identified with Judah. The study also explores the idea of the unended exile, and shows how this idea, so central to post-exilic Judaism, is also found in the book of Jeremiah MT.
