

# The Churchills: A Family Portrait

The Churchills dominated world politics for generations?but, like every family, they too have their secrets. Winstons mother, Jennie, had an affair with the Prince of Wales, later King Edward VII, and her spendthrift habits devastated the familys reputation. The younger brother, Jack, played a crucial role both in Winstons successes and in holding the family together during tough times. From Sir Randolphys alleged syphilis to Winstons illegitimacy, from Jennies gambling problem to Jacks dashed ambitions, authors Celia and John Lee use never-before-seen archives to cut through the rumors and lies and get to the truth about the life of the former prime minister and his relationship with his family.
