

Like a Flower in Bloom

For years Charlotte Withersby has worked as an assistant to her father, an eminent English botanist. As she approaches the old age of twenty-four, her father pushes her out into society, swayed by an uncle who believes Gods only two roles for women are marriage and motherhood. When one of the Withersbys colonial correspondents, Edward Trimble, returns to England, hes drafted as the new assistant so Charlotte is free to marry. This suits Edwards plans quite well, since the last thing he wants to do is reunite with the family he is ashamed to call his own. Though Edward proves himself vexingly capable on the job, Charlotte wont surrender it without a fight and schemes with her best friend to regain her position. Perhaps if a proposal seems imminent, Charlottes father will see his error and ask her to return. Charlotte tries to make headway in her towns social life but reveals herself to be unaware of all the intricacies of polite society. Though Edward pitches in, tutoring her in societys expectations, she just seems to make things worse. And the more she comes to know of her fathers assistant, the more trouble she has imagining life without him. Caught in a trap of her own making and seeing the hopelessness of her prospects, will Charlotte get to keep her work, or will she have to cede her heart?
