

Trey has dirt magic. Its messy and not very fun. But some miners in his old hometown are trapped underground, and he feels duty-bound to see if he can help. He doesnt expect to meet a nerdy, weird gay romance writer who just might have a talent or two of his own. But Leo has a way of growing on Trey—and together, they might just have what the situation requires. Not to mention each other... A quirky gay paranormal romance Length: 18,000 words Heat level: low novella by Hollis Shiloh
